

What's Your Solution?

Select five issues from the list below and develop three original solutions for each one. Solutions should be well thought out and be able to be implemented. Students may work in groups or independently.

Global warming

Hunger

Increasing cost of college tuition

High school drop out rates

School safety

Water pollution

Illiteracy

Homelessness

Rising cost of energy

Childhood obesity

Teenage use of drugs/alcohol/smoking

Pollution

Animal conservation

Hazardous waste

Health care costs

Terrorism

Nuclear proliferation

School bullying
